

Belgard Environmental Product

RainPave™ Environmental Collection

Beauty, functionality and quality are hallmarks of the Belgard® Commercial brand, and our Environmental Collection of permeable pavers is no exception. Belgard permeable pavers combine the best of Belgard with innovative stormwater management for a superior product line that provides sustainable solutions and aesthetically appealing designs.

RainPave™

RainPave clay brick pavers provide an environmentally-friendly option for preserving natural water drainage through a classic segmental pavement. With the look of a traditional, antiqued clay pavement, RainPave is the perfect choice for areas where previous surface restrictions exist or where on-site retention/infiltration is mandated.

RainPave is a registered trademark of Pine Hall Brick, Inc.

Benefits of Belgard® Permeable Paving Stone Systems

- On the US Environmental Protection Agency's (EPA) menu for structural Low Impact Development (LID) BMPs
- Can contribute toward several LEED NC-2009 points
- Reduces stormwater runoff by up to 100%
- Can be used to achieve total maximum daily load (TMDL) limits for a range of pollutants
- Certified SRI colors reduce heat island effect
- Can reduce or eliminate the need for traditional drainage and detention requirements, saving space and money
- Can be designed to accommodate all native soil types
- 50-year design life based on proven field performance

Shape

4" x 8" x 2 3/4"
(102mm x 204mm x 70mm)
Tumbled

Running Bond

Herringbone
